**Now From The Exciting Speech
by Robert LeFevre...Comes An
Exciting Booklet!**

“Does Government Protection Protect?”

One of the best speeches by radio/TV
commentator, newspaper columnist and
author, Robert LeFevre. Taking a strong
libertarian position towards protection,
LeFevre argues that “Governments have
never really said they are going to protect
us” and that governments are more in-
terested in getting people to obey legislative
laws than actually providing protection.
LeFevre says that so-called government
protection usually comes after the
fact—after the crime has been committed.
And that usually governments give us only
laws of retaliation. But, according to
LeFevre, people want to be protected, not
victimized.

Freeland Conference

The FREELAND Conference series studies alternatives to living in areas controlled by uncontrollable governments. Whether it is the search for unclaimed islands, space settlements, floating cities or underwater cities, the desire to live free in a non-coercive environment is the issue. The next evolutionary/sociological change is likely to be the need for greater individual sovereignty. And that desire for sovereignty demands a world free of regulations, taxation and aggression. The FREELAND Conference hopes to signal the threshold of a new era, an era destined to unleash an new world of prosperity and liberty never seen before on old Earth.

SPEAKERS:

Moderated by Howard Hinman

Poul Anderson has written over 80 books, mostly science fiction. Some of his more famous books include *Brain Wave*, *The Enemy Stars*, *the High Crusade*, *Guardians of Time*, *World Without Stars*, *Ensign Flandry*, *The People of the Wind*, *The Night Face*, *Tau Zero*, *The Avatar*, and *Orion Shall Rise*. Anderson has received seven Hugo and three Nebula Awards for best novelette of the year. He has also received the Tolkien Memorial Award for lifetime achievement in fantasy. Anderson majored in physics at the University of Minnesota, graduating with honors in 1948.

Poul Anderson

Gary Hudson has been an active participant in the space industrialization field for the last 13 years. In 1980 he started G.C.H., Inc., an engineering research and development corporation based in the San Francisco Bay area, to design and prototype launch vehicle systems for commercial use. Educated in physics and medicine, Hudson has published *Beyond Earth: A Personal View of Space Civilization*, as well as a textbook on the physics and economics of space transportation systems.

Barry Reid is the founder of Eden Press in Fountain Valley, California. Reid's first book was *The Paper Trip*, a unique approach to personal privacy through a change of identity. In 1976 he was interviewed by *60 Minutes* on how to create alternative identities. The U.S. Justice Department in 1979, annoyed at his activities and books, wrote that Barry Reid is a "hero to the underworld." He graduated from UCLA with a B.A. in Political Science and later received an M.A. in Spanish Literature.

Barry Reid

Terry Savage received his BA in economics with honors at UCLA in 1981. Currently, he is pursuing his MBA in Operations and Program Management at USC. Employed as a Senior Business Administrator of TRW in the Spacecraft Engineering Division, Savage was one of the founders of OASIS, becoming its first president. He is also a board member of the L-5 Society and president of Space Systems, Incorporated.

Terry Savage

Bill Pozzi received his BA at Cal State Fullerton and attended Pepperdine MBA School. In 1966 he joined the Navy Reserves to avoid the draft, but was sent to Vietnam as a member of the underwater demolition team. In 1977 Pozzi started Apollo Moving and is diversifying into real estate and the limousine business.

Bill Pozzi

Conrad Schnelker received his BS in Engineering Mathematics at the University of Arizona, and was also a graduate student in Systems Engineering. A writer for *Earth/Space News*, Schnelker was technical/paper reviewer for the L-5 Society. He is the author of a forthcoming article in the British Interplanetary Society's publication. Currently, he is the Marketing Director at Green Hills Software of Pasadena, California.

Conrad Schnelker

Wayne White is a 1984 graduate of the U.C. Davis School of Law, where he participated as a member of the Law Review. White holds the Master of Administration degree from U.C. Riverside (Business Administration/Finance, 1980) and B.A. degrees from Chapman College (double major, Psychology/Business Administration, 1978). A founding member of the Advancement of Space Industrialization and Settlement (OASIS), White has published several articles on "real property in outer space" in the L-5 News.

RAMPART INSTITUTE

Post Office Box 4, Fullerton, California 92632

Like the immortal bird Phoenix, Rampart Institute arose from the ashes of a long deceased organization that once held the respect and admiration in the movement for individual liberty. Opening its doors in 1956, Rampart College, originally located in the Rampart Range of the Colorado Mountains, became defunct in early 1975. Ever since its demise, a tremendous gap in the studies of liberty and free market economics has been apparent. In 1981 Rampart Institute was born to fill this void.

NEW RAMPART..... \$12 per/yr. (\$18 two years); six times a year
RAMPART INDIVIDUALIST.....\$10 per/yr. (\$15 two years); bi-annual.
