July 25

MARILYN MERRILL will discuss the controversial alternative cancer clinics in Mexico and their methods. Her lecture (including slides) is sure to be thought-provoking, and will include material that she regularly presents on the "Health on Wheels" alternative cancer clinic tours, which depart several times each month from the Los Angeles and Orange County areas. One of your editors took this tour and found it absolutely fascinating and highly informative.

August 22

JEFFREY ROGERS HUMMEL on "National Defense--The Most Nonessential Government Service". Mr. Hummel is currently Director of Research for the Libertarian Party's 1982 campaigns, and is rapidly becoming one of the area's better known speakers (with good reason). His writings have appeared in Caliber, Libertarian Review, Inquiry, Reason, Journal of Libertarian Studies, Reason Papers, Austrian Economics Newsletter, Free Texas, and many other periodicals.

September 26

CHARLES CURLEY on "Where the Libertarian Movement Should be in Twenty Years". Mr. Curley is presently a programmer with Rockwell, Electronic Devices Division. His diverse background includes, among other things, writing, working as a model machinist on commercials, shows and movies, and self-publishing, as well as being a founding member of the National Committee to Legalize Gold, now the National Committee for Monetary Reform. Author of "The Coming Profit in Gold" (Bantam, 1974), he has written numerous articles on monetary economics and investment, one of which became the basis for the 1978 American Arts Gold Medallion Act.

WE APOLOGIZE FOR OUR DELAY...

...To all of you have been waiting patiently (and impatiently) for Libertas Review to appear, we've been through some hard months and have just recently pulled together the people and the money to get this issue out.

We hope to come out with a normal sized LR soon. In the meantime, rest assured. We're still alive, and we haven't forgotten you.

SLL has been suffering, like everyone else, from the government's economic depredations. In particular, the Post Awful's rate hikes are depleting our resources at an ever-increasing pace. Well, we've had enough, and the next Libertas Review will contain a proposal

for making LR independent of this ancient government monopoly.

In the meantime, we need your contributions--both to keep LR coming and to help us to eventually break totally free from the U. S. Postal "Service." Please send us your donations (mail it today and we might receive it in time for Christmas).

The Libertas Statement

We, as libertarians, affirm:
That full individual liberty is impossible in any society other than a voluntary one that aggresses upon no one.
That men and women require the full and independent use of their own judgement in order to survive at an optimum level, and therefore have a natural right to do their own thing, providing that they do not physically harm or coercively restrict another individual's life, liberty or property;
That everyone is exclusively sovereign, and is a slave to no one;
That the individual is best served by society when he or she is free from the forcefully imposed controls of others, acting alone or in concert (as a government);
That all forms of coercion, aggression and fraud are always immoral;
That the only system consistent with personal freedoms in the economic area is one that does not interfere with free trade between consenting individuals;
THEREFORE, we as libertarians, resolve to oppose all forms of aggression by any State, Government, self-appointed savior, individual or association of individuals. We further resolve to oppose taxation, conscription, eminent domain, laws which create victimless "crimes," and all programs forced onto individuals without their consent. It is time that the chains of authoritarianism in economics and morality be broken. Individual rights and coercion cannot co-exist. Liberty cannot be compromised, and we will settle for no less than *freedom in our time*.
